-

Education

Computer Engineering Technology – Computing Science | 2024 – Present

Algonquin College, Ottawa, Ontario

Professional Experience and Volunteer Work

Concierge/Budtender | Feb 2023 – Present

Spiritleaf Inc., Hog's Back, Ottawa, Ontario

- Provides high-quality customer service to a wide range of populations in an efficient manner.
- Utilization of point-of-sale (POS) systems and inventory management software to track product sales and maintain stock levels efficiently.
- Ensures compliance with regulatory standards and contributes to the development of internal processes for tracking and managing products.

Front-line Technology Support Volunteer | Dec 2025 – Present

Connected Canadians, Ottawa, Ontario

- Provides direct, one-to-one technical support and education to older adults, assisting them with navigating digital devices.

- Diagnoses hardware and software usability issues and cultivate quality instructions to explain complex technical concepts in an accessible way.

Kitchen Volunteer | Sep 2021 – Aug 2025

The Ottawa Mission, Ottawa, Ontario

- Supported community meal preparation and delivery to a vulnerable population through volunteering in a kitchen.
- Assisted with providing over one hundred meals per shift.

Counter Staff | Apr 2022 – Feb 2023

Tim Hortons, Ottawa, Ontario

- Delivered customer service and managed high-stress, fast-paced workflows.
- Prepared food and drink orders with various levels of customizations, while maintaining regulatory standards to over one hundred people per shift.

Floor, Garden Centre & Lumberyard Staff | July 2015 – Aug 2021

BMR, Winchester, Ontario

- Operated inventory tracking software to update stock levels, systematized workflow processes, and prioritized daily tasks based on customer demand.
- Loaded and delivered construction materials on a one-ton, three-ton, and five-ton truck.

Academic Experience

Git-like Version Control System (C++) | *Algonquin College, Ottawa, Ontario*

- Collaboration within a team to develop a custom version control system.
- Programmed the back-end infrastructure using C++ and implemented GUI scripting for user interaction.

Technical Report | *Algonquin College, Ottawa, Ontario*

- Co-authored a comprehensive report within a team, detailing the technical justification for migrating communication from Slack to Microsoft Teams.
- Presented findings to academic stakeholders, demonstrating the ability to translate technical specifications into business value.

Certificates and Trainings

CannSell Certification

Standard CPR C & AED Training (Jan 2024)

Accessibility for Ontarians with Disabilities Act (Sep 2021)
